

Budget-Friendly Ways to Boost Curb Appeal

Power washing the exterior of your home can make old siding or brick look like new. No power washer? You can rent one at your local home improvement store.

Create a customized look by adding faux shutters to your front-facing windows. A stained wood or pop of paint packs an extra punch.

A well-maintained fence is a sharp way to highlight your property. If your fence is leaning, has missing boards or holes, it may be time to replace it. Otherwise fresh stain can make it look like new.

Refresh your front porch by wrapping columns with new brick, stone, or cedar veneer. You can also brighten things up with a fresh coat of paint.

Replace old plants that have overtaken the bed with appropriately sized shrubs and flowers. Add exterior lighting so you can admire your garden at night.
